

John Brown Photography: *Installations* *The Nature Series*

Collectors: Gibby and Buz Waitzkin
Location: Arlington, Virginia

As art collectors, the Waitzkins have integrated unique visual pieces throughout their suburban Washington, DC home. When designing the interior spaces and to echo the vertical nature of the architectural column that separates the living and dining areas, the Waitzkins creatively installed Brown's photographic images in an upright manner. Additional images from the *Nature Series* also have been acquired by the Waitzkins to serve as special gifts for friends and family.
